Easy Ways to Obtain NASA Educational Materials

The NASA Office of Education works with NASA experts to promote education as an integral component of NASA research and development missions. These efforts result in innovative and informative educational materials that engage student interest in science, technology, engineering, and mathematics. NASA makes these resources available through the following ways:

- View and download educational resources from NASA's Web site.
<http://www.nasa.gov/education>
- Visit a NASA Educator Resource Center (ERC).

NASA's Educator Resource Center Network

NASA's ERCs are located throughout the United States, in the U.S. Virgin Islands, and in Puerto Rico. ERCs offer information about NASA and its educational resources and services. Personnel provide inservice and preservice training using NASA curriculum support materials. ERC team members also collaborate with educational organizations to foster systemic initiatives at local, state, and regional levels. Contact a NASA ERC for services in your area. <http://www.nasa.gov/education/ercn>
