Subject Descriptors: Adobe, Photoshop, Elements, Catalog, Tag, Face

Application (Version): Adobe Photoshop Elements 8.0 for Windows

Task Description: I want to tag a face in an image in my catalog in Adobe Photoshop. How do I do that?

Tutorial Date: 21 May 2009, Marita Jackson. Updated 17 June 2010 Kasidy Stafford

Open the organizer...

Click on the organizer in the top right-hand corner of the elements editor to update..
Find the people recognition button in the Keyword Tags section of the organizer...

This button will automatically recognize faces in your photos, and allow you to identify or tag them.
Name each person in the photo..

Each time you tag a person, elements will create a keyword tag for them.
To make a new keyword tag...

Click on the green + and then select New Keyword Tag.

Set the category, and name the tag.
If you do not have a photo specified when tagging, this dialog box will appear. Click yes.

These are all the faces that are facing towards the camera.
Select pictures of the same face...

You can do this by clicking on multiple pictures while holding down the ctrl key.

Then drag into the tag created for them...
You can also right click...
